Ryobi Die Casting is leading the industry in high-pressure aluminum die castings.Â As a tier one supplier to the automotive industry, we are dedicated to providing our customers with only the highest quality castingsâ€”on time.Â

Our products include integrated transmission cases, two piece transmission cases, rear wheel drive transmission cases, converter housings, large and small engine parts, engine blocks and most recently, structural parts.Â Our parts are used in a number of Ford, GM, Honda, Nissan and Toyota vehicles.Â In addition, we also manufacture smaller parts for Tuff Torq Corporation, which are utilized in the lawn and garden industry.
